Business Technology,*

**Count on AMT to
Set New Standards**

*with Solutions
to Your
Technical Challenges.*

Delivering Beyond Expectation.

Engage the collective background and experience of AMT. We use a design and development process that ensures success at every step:

- Design for Six Sigma (DFSS)
- Design for Manufacturing and Assembly (DFMA)
- Design of Experiments
- Failure Modes and Effects Analysis
- Engineering Analysis (including FEA)
- Benchmarking and Competitive Analysis
- CAD Versatility
- Value Supply Chain Management
- Cost Reduction on New and Existing Products
- Early Supplier Involvement

RAISING THE BAR FOR ENGINEERING EXCELLENCE
Applied Mechanical Technologies, Inc.

Benchmark-Busting Ingenuity
in Office Technology Products.

*An Overview of AMT's Expertise
in Office Equipment and Systems*

Tap Into the Innovators in Office Technologies

To stay ahead, reduce costs and extend the reach of internal engineering teams, major office equipment companies such as Xerox, and Eastman Kodak Company turn to Applied Mechanical Technologies.

Now all companies with office product systems or subsystems needs can benefit from AMT's experience in complex technologies. Our teams consistently find unique solutions to the most vexing technical issues.

Whether you're working on a finishing system fixture or a complete media-handling strategy, AMT can help bring it to life — on time and on budget.

These are just some of the companies with which we've been privileged to work:

NexPress	Kodak
Xerox	Nu-Kote
Axiohm	Kirtas Technologies
Mitsubishi Chemical America	

Bring Added Competence to Product Development.

AMT works directly with you at all levels. By creating teams to work in specific product design areas, we are the most cost-effective resource. Personnel overhead can be reduced. We bring added skills and experience to your team.

Look to AMT for the engineering horsepower to come through for you.

"I would like to express my appreciation for the high quality work that was done on our recent design project ... the design quality and creativity were first rate. The high quality output from this project has enabled us to meet our internal deliverables and goals. I would not hesitate to recommend your company for future design projects."

Systems Experience

Copiers	Scanners
Printers	Page Turners
Kiosks	Point-of-sale terminals
Handheld Products	
Consumables: Liquid and Dry Ink Cartridges	

Subsystems and Technologies Experience

Media and Paper Handling	Finishing Products
Frames and Covers	Optical Systems
Enclosures	Transports
Paper Trays	Kiosk Accessories
Media Feeders	Scanners

Improve Turnaround to Increase Profitability.

For incremental or from-the-ground-up development, AMT greatly reduces a product's total time-to-market (TTM). Your AMTeam can lead the way to faster commercialization by improving the conceptual process and reducing costs — in hardware, in user systems and in specific electronic components and assemblies.

Let AMT Bridge the Abilities of Your Teams.

To extend your company's capabilities, use our people selectively or completely. AMT can complement the experience of your people and provide a "fresh" perspective on any challenge they face.

Look to AMT for leadership in these technical areas:

[Systems Architecture Development](#)

[User Interfaces](#)

[Requirements Definition and QFD's](#)

[Electrical/Electronic Systems](#)

[Subsystem Design](#)

[Fixture Design and Development](#)

AMT commercialized this world-class automated book-scanner through its multi-discipline technologies knowledge, relationships with partners, and management of the value supply chain in benchmark time-to-market.

[Hardware Prototypes](#)

Expect Total Confidence and Confidentiality.

At AMT, we're known for our brainstorming and broad thinking. You get innovative ideas, products, patents and other intellectual properties that are protected by AMT's "need-to-know" team approach. In fact, more than 50 patents have been developed on behalf of AMT office equipment clients.

To enlist the skills, insights and abilities of AMT on your next office project, just call. See why large and small companies alike turn to us to make a success of their products.
