

Delivering Excellence!

Count on the collective background and experience of AMT. We use a design and development process that ensures success at every step:

- Design for Six Sigma (DFSS)
- Design for Manufacturing and Assembly (DFMA)
- Design of Experiments
- Failure Modes and Effects Analysis
- Engineering Analysis
- Industrial Design and Human Factors
- Benchmarking and Competitive Analysis
- CAD Versatility
- Value Supply Chain Management
- Cost Reduction on New and Existing Products
- Early Supplier Involvement

RAISING THE BAR FOR ENGINEERING EXCELLENCE
Applied Mechanical Technologies, Inc.

Off-the-chart Innovation— in Medical Technologies.

*An overview of AMT's
Medical Industry Experience.*

Our Experience Can Help Get Your Products

Out of the Lab and onto the Shelf...Faster!

Fulfilling Your Technology's Promise.

For 15 years, industry leaders have chosen AMT for a variety of product applications. We have delivered outstanding results for some of the world's most prestigious medical and biomedical companies:

- Bausch & Lomb
- Fisher Scientific
- Johnson & Johnson
- Kodak Health Imaging Division
- Welch Allyn

Our experience includes:

Ophthalmology

ENT/Otolaryngology

Biomedical, including PCR

Clinical Chemistry

Surgical Technology

Bio Mechanics

Bringing Medical Technologies on Stream...Faster.

To turn your technology into a product, we focus on understanding the needs of your company. We work on a full turnkey (concept to pre-production) or on a phased (just the design or prototype phase) approach. We'll do what works best to leverage your company's core competencies.

We also understand the unique requirements of the medical and biomedical industry and work with you to meet the stringent guidelines of FDA, GMP and GAMP. We know how to integrate key elements to meet government regulations and how to comply with industry standards and best practices.

Our program managers and design teams bring a diversity of experience and a high level of professionalism to every project. This commitment to best practices maximizes project efficiency and speeds "Time to Market" for your product.

AMT can assist you with many aspects of new and emerging medical technologies. Let us show you how we can help your company right now!

- Personal Care Products
- Lab Instruments
- Surgical Devices
- Diagnostic Equipment
- Meters & Monitoring
- Lighting

We deliver rapid, innovative and affordable solutions for some of the best companies in the medical and biomedical industry.

"We never got a product to market faster than we did when working with AMT."
